## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors  
Glover Capital, Inc.  
Atlanta, Georgia

### Opinion on the Financial Statements

We have audited the accompanying statement of financial condition of Glover Capital, Inc. (the "Company") as of June 30, 2019, and the related notes to the financial statement (collectively, the financial statement). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company as of June 30, 2019, in conformity with accounting principles generally accepted in the United States of America.

### Basis for Opinion

This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the auditing standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

*Porter Keadle Moore, LLC*

We have served as the Company's auditor since 2013.

## *Notes to Financial Statements*

*June 30, 2019*

---

### Note 1 - Description of business and summary of significant accounting policies:

Glover Capital, Inc. (the Company) was incorporated on September 16, 1987 for the purpose of becoming qualified as a licensed broker/dealer. On September 24, 1987, the Company became licensed as a broker/dealer and began operations.

The following is a summary of the more important accounting principles and policies followed by the Company:

#### Basis of presentation

The Company has adopted the Financial Accounting Standards Board (FASB) Accounting Standards Codification (Codification). The Codification is the single official source of accounting principles generally accepted in the United States (U.S. GAAP) recognized by the FASB to be applied by nongovernmental entities and all of the Codification's content carries the same level of authority.

#### Revenue recognition

The Company prepares its financial statements on the accrual basis of accounting. Revenues are recognized when obligations under the terms of a signed customer contract are satisfied. For the Company, this generally occurs when the deal "closes." Revenue is measured as the amount of consideration the Company expects to receive in exchange for services provided to the customer.

#### Receivables and credit policies

The Company routinely assesses the financial strength of its clients and, as a consequence, believes that its commission receivable credit risk exposure is limited. Commission receivables are carried at original contract amount less an estimate for anticipated credit losses as determined by management in the course of regularly evaluating individual receivables. To date, bad debts have not exceeded management's expectations. Commission receivables are written off when deemed uncollectible. Recoveries of commission receivables previously written off are recorded as bad debt recovery when received. At June 30, 2019, there were no commissions receivable or allowance for doubtful accounts deemed necessary.

#### Cash and cash equivalents

The Company has defined cash equivalents as highly liquid investments, with original maturities of less than three months that are not held for sale in the ordinary course of business.

---

### Note 1 - Description of business and summary of significant accounting policies - continued:

#### Income taxes

Income taxes are accounted for under the asset and liability method. Deferred income tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred income tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of a change in tax rates on deferred income tax assets and liabilities is recognized in income in the period that includes the enactment date. Income tax benefit is the change during the year in deferred tax assets and liabilities.

The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authority, based on the technical merits of the position. As of June 30, 2019, there are no known items which would result in a material accrual related to where the Company has federal or state attributable tax positions.

#### Major customers

The nature of the Company's business is to handle in any year a limited number of transactions. During the year ended June 30, 2019, the Company had no transactions.

#### Use of estimates in the preparation of financial statements

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Subsequent events

All subsequent events, if any, requiring recognition, have been incorporated into these financial statements.

# GLOVER CAPITAL, INC.

## *Notes to Financial Statements - Continued*

*June 30, 2019*

---

### Note 2 - Net capital requirements:

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1.

At June 30, 2019, the Company had net capital of \$12,446 which was \$7,446 in excess of its required net capital of \$5,000. The Company's aggregate indebtedness to net capital ratio was 0.27 to 1 at June 30, 2019.

### Note 3 - Transactions with related party:

The Company and Glover & Associates, Inc. are affiliated companies under common management control. The existence of this control could result in operating results and/or a financial position of the Company significantly different from those that would have been obtained if the companies were autonomous.

At June 30, 2019, the Company owed \$2,470 to Glover & Associates, Inc. for various operational expenses.

### Note 4 - Possession or control requirements:

The Company does not have any possession or control of customer funds or securities.

### Note 5 - Concentration of credit risk:

The Company maintains its cash in bank deposits which, at times, may exceed federally-insured limits. The Company has not experienced any losses in such accounts.

# GLOVER CAPITAL, INC.

## *Notes to Financial Statements - Continued*

*June 30, 2019*

---

Note 6 - Income taxes:

The income tax effect of temporary differences that give rise to significant portions of the Company's deferred income tax assets and liabilities at June 30, 2019 is presented below:

Deferred income tax assets:	
Net operating loss and credit carryforward	\$ 30,910
Accounts payable	231
Due to related party	<u>666</u>
Total gross deferred income tax assets	31,807
Deferred income tax liabilities	<u>-</u>
Net deferred tax asset	<u>\$ 31,807</u>

The Company's management concluded that it was more likely than not that the deferred tax asset would be recovered so no valuation allowance against the net deferred tax asset was deemed necessary at June 30, 2019.

The Company has net operating loss carryforwards for federal and state income tax purposes of \$114,480 at June 30, 2019, which are available to offset future taxable income and begin expiring in the year 2037.
